

Partnering with Banyan

Founded in 2008, Banyan Capital Partners is a leading Canadian mid-market private equity firm with a successful track record. Banyan invests equity capital alongside Connor, Clark & Lunn Financial Group Ltd. and several Connor, Clark & Lunn Private Capital high-net-worth clients.

INVESTMENT STRATEGY

Banyan typically invests \$10 million to \$50 million of equity per transaction in companies that generate trailing 12-month earnings before interest, taxes, depreciation and amortization (EBITDA) of at least \$5 million and is actively looking for the following types of investment opportunities:

- Succession-based transactions involving family-owned or founder-led businesses
- Management buyouts involving one or more shareholders
- Companies seeking to raise equity capital to accelerate growth through acquisitions
- Carve-out acquisitions of corporate divisions
- Leveraged buyouts of small-cap public companies seeking take-private transactions
- Traditionally strong businesses involved in specialized situations including processes relating to bankruptcy or insolvency, working capital support, or balance sheet restructurings

ATTRIBUTES OF TARGET BANYAN INVESTMENTS

- Established businesses that generate significant and stable free cashflow
- Led by, or have the ability to, attract strong operating partners
- Demonstrable competitive advantage and/or favourable market position
- Organic and/or strategic (acquisition-based) growth potential with at least some degree of tangible asset value
- Headquartered or majority of operations in Canada or the United States

HOW IS BANYAN UNIQUE?

Banyan offers a unique capital solution relative to other equity sources available to North American mid-market companies:

BANYAN	CONVENTIONAL PRIVATE EQUITY FIRMS
Longer-term investors with no contractual requirement to sell our investments and the ability to tailor our hold period for each investment based on their unique circumstances	Shorter-term investors, typically with a 10-year fixed-term fund life and incentives to pursue liquidity from their investments in 3 to 7-year cycles
Partnership approach to investments that emphasizes mutual alignment with our operating partners and the ownership of high quality businesses with a focus on building sustainable value for the long term	Acquisition approach to investments that emphasizes a project-based approach, maximizing returns through the deployment of capital, market timing and financial engineering through the application of potentially elevated debt levels
With ample equity capital available from Banyan's evergreen fund structure, Banyan's investment professionals focus their full attention on making investments and working closely with company management teams and stakeholders to build long-term value	Investment professionals split their time between finding and making investments and raising new funds, which can be a distracting and time-consuming undertaking
